

**10th Annual Canadian Cancer Immunotherapy Consortium
13-15 December 2017**

Preliminary Agenda

Wednesday, December 13

11:00-17:00	Registration	
14:00-15:15	Opening Remarks	
	Opening Keynote Lecture	
	Rafi Ahmed , Emory University <i>"T cell memory and exhaustion"</i>	
15:15-16:15	Session 1: Immunomodulation	
	Chris Rudd , Centre de recherche Hôpital Maisonnette-Rosemont <i>"New pathways that control T-cell adaptive immunity and immunotherapy"</i>	
	Wilson Miller , Jewish General Hospital – University McGill <i>Title TBA</i>	
16:15-16:30	Coffee Break	
16:30-17:00	Ana Anderson , Harvard University <i>"Understanding CD8⁺ T cell heterogeneity in cancer"</i>	
17:00-17:30	Speed Poster Session 1	12 of them, 2 minutes each
17:30-17:45	Poster oral presentation 1 (1 talk)	
17:45-18:30	Networking and poster setup	
18:30-20:00	Opening cocktail and Poster Session Viewing	
20:00-22:00	Opening Night Reception	

Thursday, December 14

8:00-17:00	Registration	
7:30-8:30	Breakfast	
8:30-9:30	Session 2: Immune infiltration	
	Morag Park , McGill University <i>"Heterogeneity in triple negative breast cancer microenvironment: Impact on outcome"</i>	
	Naoto Hirano , Princess Margaret Cancer Centre <i>"Systematic discovery of antigens and their cognate T cell receptors of melanoma tumor-infiltrating T cells"</i>	
9:30-10:00	Speed Poster Session 2	
10:00-10:30	Coffee Break	
10:30-11:30	Session 3: Moving Immunotherapy Forward – a clinical perspective	
	Jean-Sébastien Delisle , Hôpital Maisonneuve-Rosemont – Université de Montréal <i>Title TBA</i>	
	Andy Minn , University of Pennsylvania <i>"Response and resistance to radiation and immune checkpoint blockade for cancer"</i>	
11:30-11:45	Poster oral presentations 2 (1 talk)	
11:45-13:30	Lunch and networking	
13:30-14:30	Session 3: Moving Immunotherapy Forward – a CAR perspective	
	Daniel Abate-Daga , Moffitt Cancer Center and Research Institute <i>"Deconstructing CAR-T cells: An immunoproteomic approach"</i>	

	Étienne Gagnon , IRIC – Université de Montréal <i>“T-cell based CARs: changing speed, adding gears”</i>	
14:30-15:00	Poster oral presentations 3 (2 talks)	2X15 minutes
15:00-15:30	Coffee Break	
15:30-16:30	Day 2 Keynote Lecture Hans-Georg Rammensee , University of Tübingen <i>“Impact of the immunogenic landscape of cancers on immunotherapy”</i>	
16:30-17:15	Break	
17:15-20:00	Poster Session Viewing and cocktails	

Friday, December 15

8:00-11:00	Registration	
8:00-9:00	Breakfast	
9:00-10:30	Session 4: Enhancing Anti-Tumor Immunity	
	Dan Powell , University of Pennsylvania <i>Title TBA</i>	
	Alain Lamarre , INRS – Institut Armand-Frappier <i>“Cancer immunotherapy using viral nanoparticles”</i>	
	Alexandra-Chloé Villani , Harvard Medical School <i>“Leveraging single-cell genomics framework to develop new tools for immuno-oncology”</i>	
10:30-11:00	Coffee Break	
11:00-12:00	Closing Keynote Lecture Cornelius Melief , Leiden University Medical Centre <i>“Combination immunotherapy of cancer: which choices to make?”</i>	
12:00-12:20	Prizes – Poster and Speed Poster Presentation	
	Closing Remarks
